

HUB

WPEHUB

Installation Guide

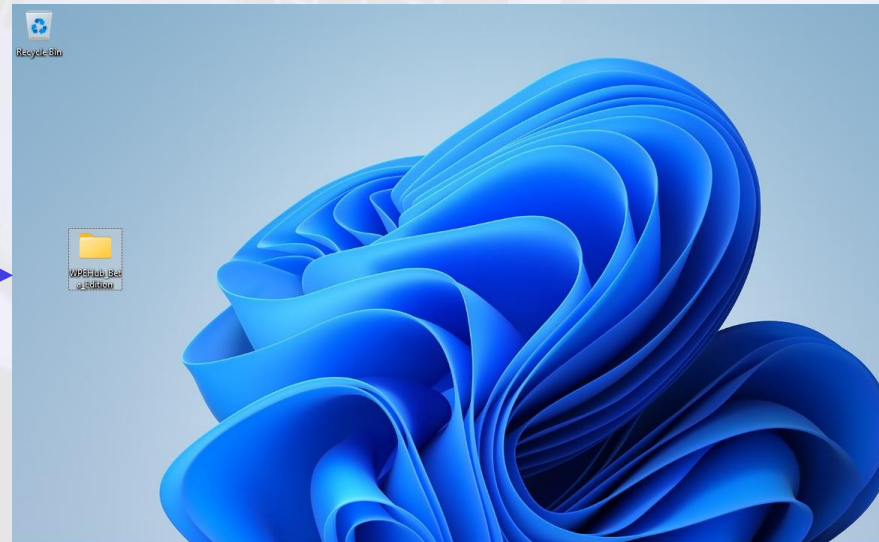

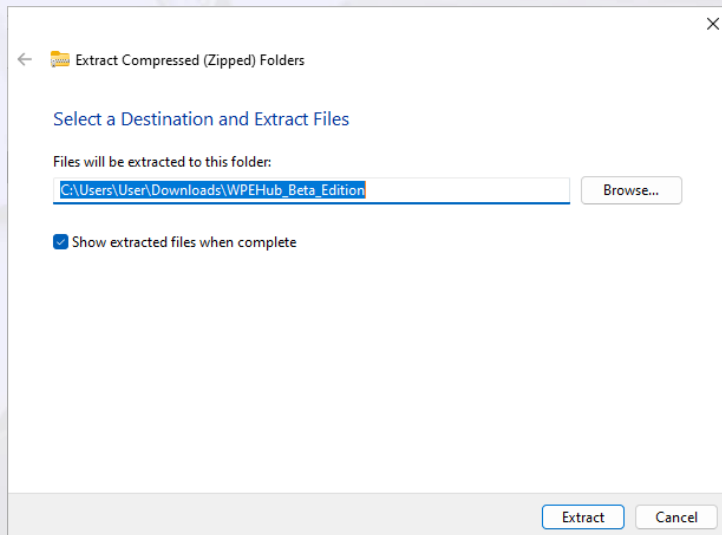

Requirements

- Having downloaded the .zip file from the website
- Have an activation code

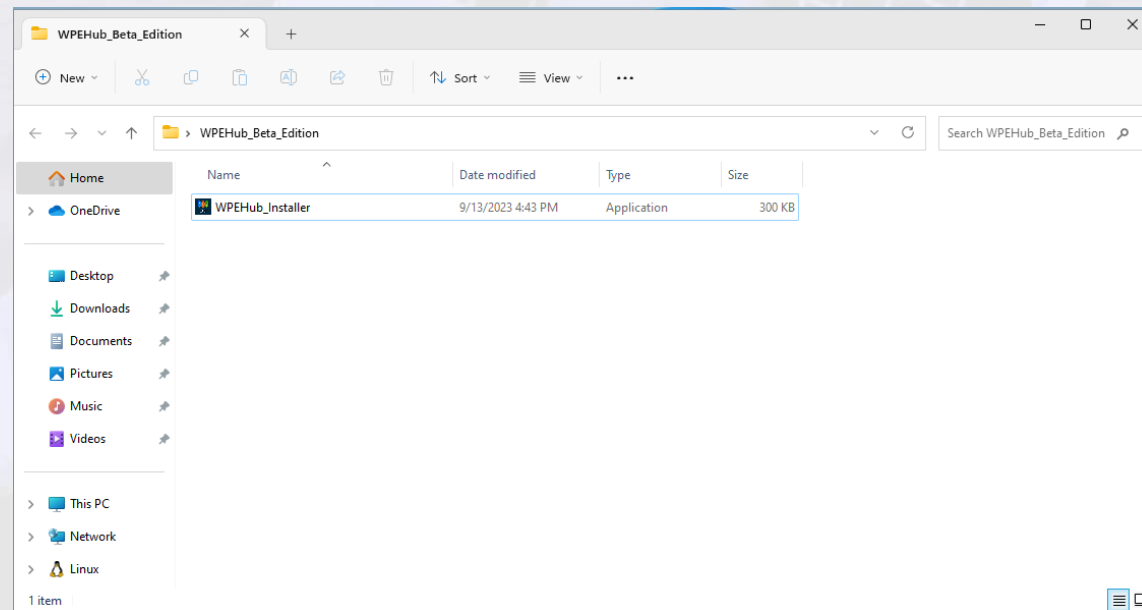

Extract the .zip file to a folder of your choice

- First you need to extract the folder called "WPEHub_Beta_Edition" into a folder of your choice.

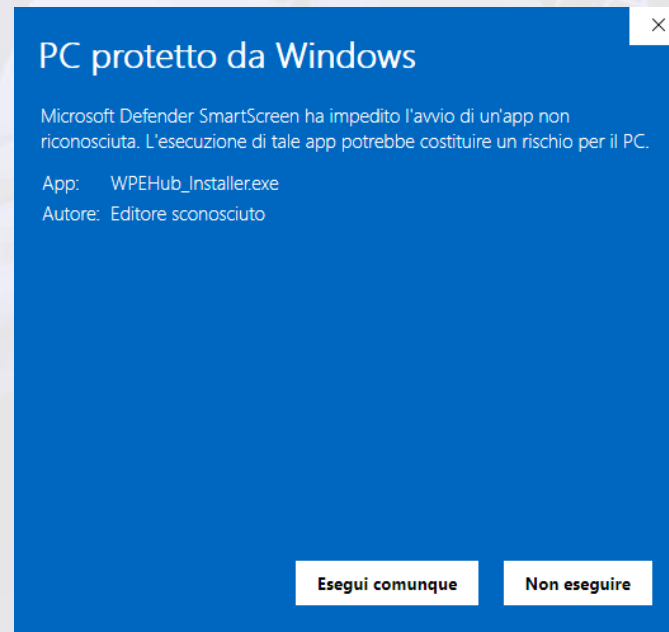

Run the .exe file

- Open the folder named "WPEHub_Beta_Edition" and run the file "WPEHub_Installer.exe".

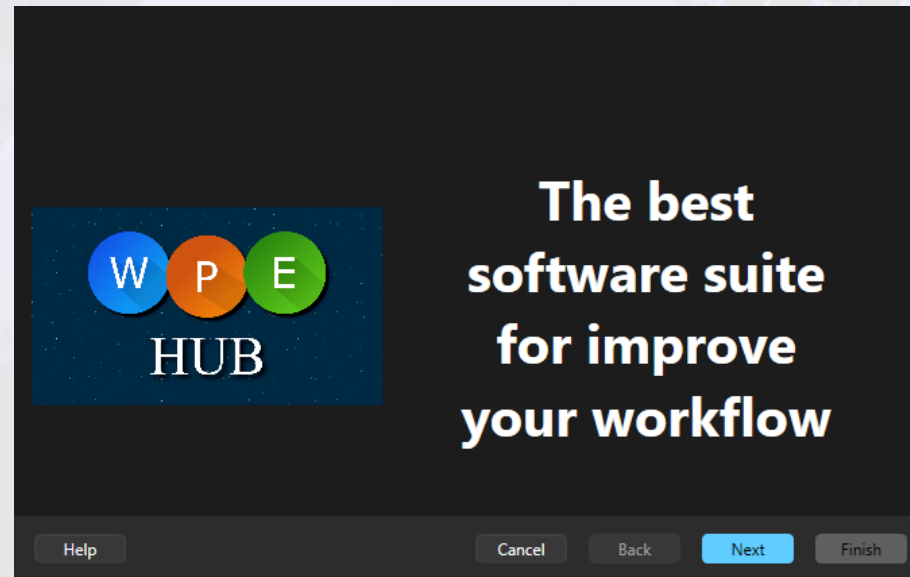

SmartScreen authorization

- When SmartScreen asks for permission to run the program, grant it.
- Note: Some devices may not ask for permission to run the program.

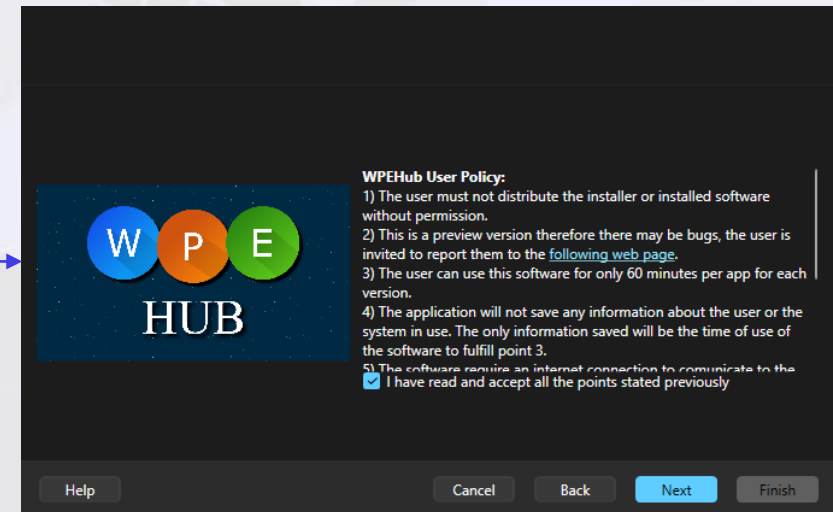

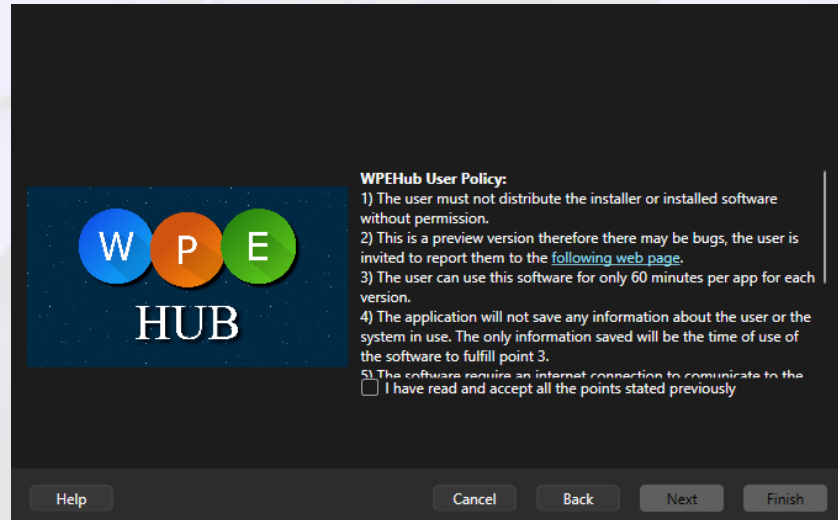

Homepage

- On the installer home page there is a Help button to obtain further support and the Cancel button to interrupt the installation process.

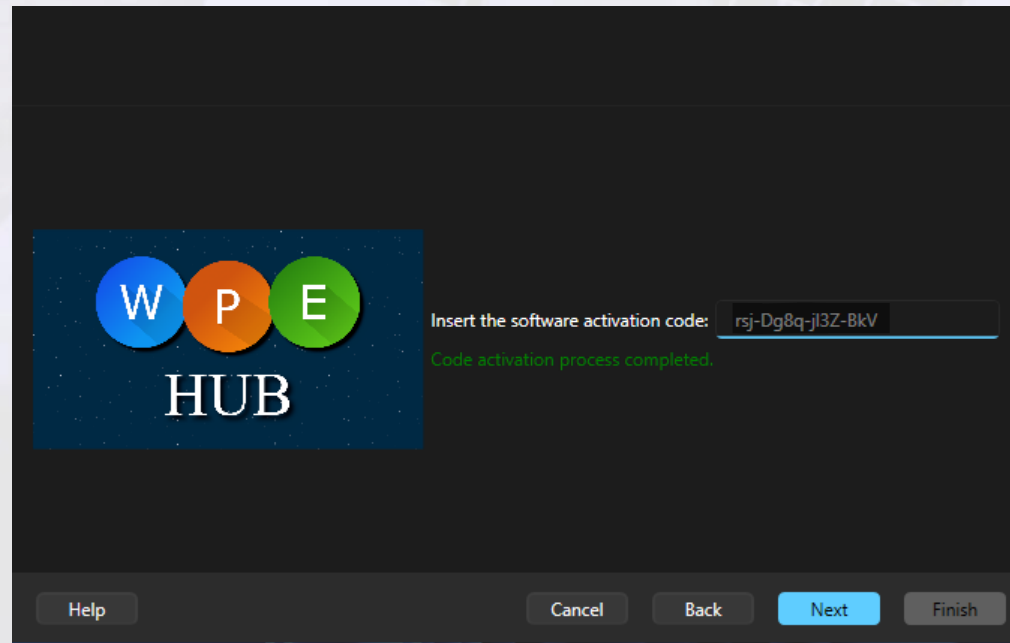

User Policy

- After reading all the clauses of the user policy, click on the authorization checkbox and press the next button.

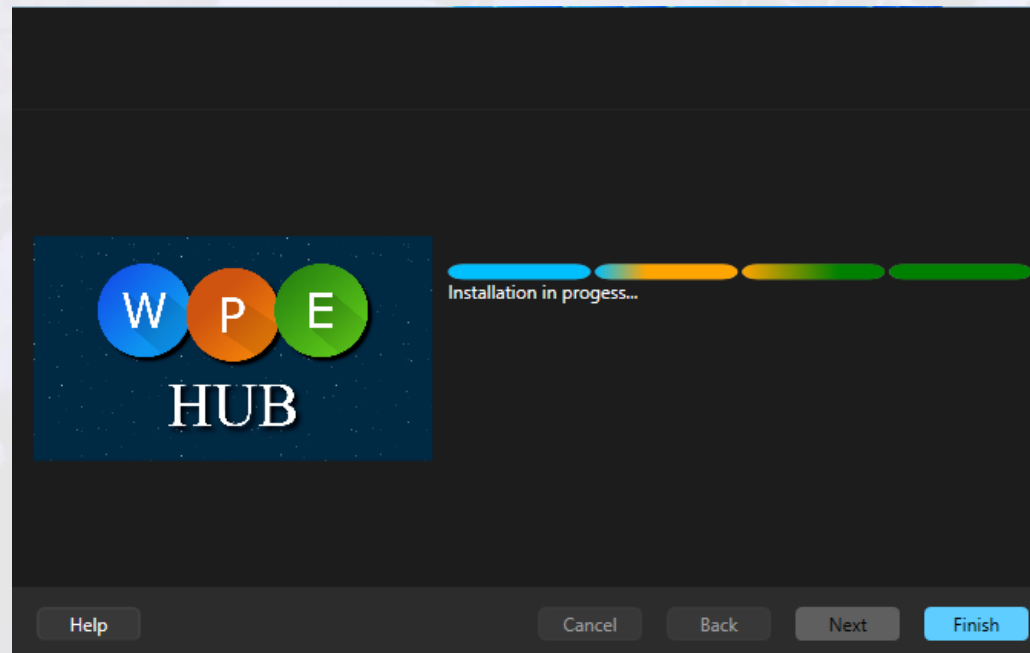

Software Activation

- Now enter the activation code provided during the download of the .zip file into the appropriate textbox.
- When the activation code is verified press the next button.

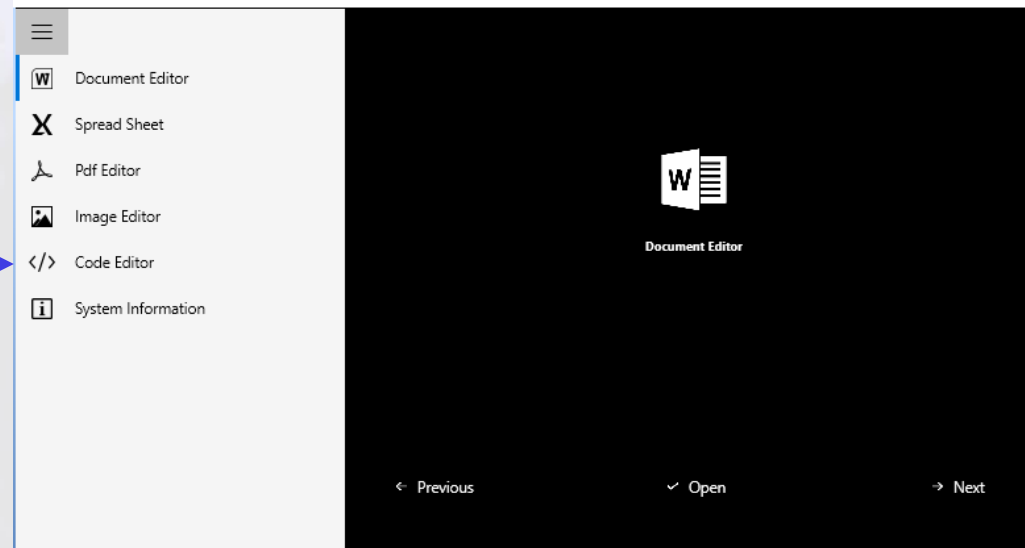

Installation

- Wait for the installation process to complete.
- Press the Finish button to end program execution.

Run the application

- To run the application, press the icon that appears on the desktop.
- If SmartScreen asks for permission to run the application, grant it.
- Note: Some devices may not ask for permission to run the program.

If you need more support, please fill out the form on the following [website](#).
